thalidomide
theophylline
thiethylperazine
thiopental
thioridazine
thiothixene
thyroid desiccated
tiagabine
timolol
timolol ophthalmic
timothy grass pollen allergen extract
tiotropium
tirzepatide
tizanidine
tolazamide
tolazoline
tolbutamide
tolcapone
tolterodine
topiramate
tramadol
tranylcypromine
trazodone
treprostinil

triazolam
trichlormethiazide
trichophyton skin test
trifluoperazine
triflupromazine
trihexyphenidyl
trimeprazine
trimethadione
trimethobenzamide
trimipramine
tripelennamine
triprolidine
troglitazone
tromethamine
trospium

U

umeclidinium

V

valbenazine
valerian
valproic acid
vemurafenib
venlafaxine
vigabatrin

Z

zaleplon
ziconotide
ziprasidone
zolpidem
zonisamide
zuranolone

Chlorpheniramine/methscopolamine/pseudoephedrine alcohol/food interactions

There are [2 alcohol/food interactions](#) with chlorpheniramine / methscopolamine / pseudoephedrine.

Chlorpheniramine/methscopolamine/pseudoephedrine disease interactions

There are [27 disease interactions](#) with chlorpheniramine / methscopolamine / pseudoephedrine which include:

autonomic neuropathy
GI obstruction
glaucoma
obstructive uropathy
reactive airway diseases
myasthenia gravis
infectious diarrhea
cardiovascular disease
cardiac disease
tachycardia
anticholinergic effects
asthma/COPD
cardiovascular
renal/liver disease
coronary artery disease
gastric ulcer
gastroesophageal reflux
ulcerative colitis
GI narrowing
PKU
BPH
diabetes
glaucoma
hypertension
hyperthyroidism
diarrhea
fever

Drug Interaction Classification

These classifications are only a guideline. The relevance of a particular drug interaction to a specific individual is difficult to determine. Always consult your healthcare provider before starting or stopping any medication.

Major	Highly clinically significant. Avoid combinations; the risk of the interaction outweighs the benefit.
Moderate	Moderately clinically significant. Usually avoid combinations; use it only under special circumstances.
Minor	Minimally clinically significant. Minimize risk; assess risk and consider an alternative drug, take steps to circumvent the interaction risk and/or institute a monitoring plan.
Unknown	No interaction information available.

Further information

Always consult your healthcare provider to ensure the information displayed on this page applies to your personal circumstances.
