[Medically reviewed](#) by Drugs.com. Last updated on Dec 18, 2023.

[Uses](#) [Before taking](#) [Warnings](#) [Directions](#) [Side effects](#) [Overdose](#)

## Uses of Fructose, Dextrose, and Phosphoric Acid:

- It is used to treat [upset stomach](#) and throwing up.

## What do I need to tell my doctor BEFORE I take Fructose, Dextrose, and Phosphoric Acid?

- If you have an [allergy](#) to fructose, [dextrose](#), phosphoric acid, or any other part of fructose, dextrose, and phosphoric acid.
- If you are allergic to fructose, dextrose, and phosphoric acid; any part of fructose, dextrose, and phosphoric acid; or any other drugs, foods, or substances. Tell your doctor about the allergy and what signs you had.
- If you are not able to break down fructose.

This is not a list of all drugs or health problems that interact with fructose, dextrose, and phosphoric acid.

Tell your doctor and pharmacist about all of your drugs (prescription or OTC, natural products, [vitamins](#)) and health problems. You must check to make sure that it is safe for you to take fructose, dextrose, and phosphoric acid with all of your drugs and health problems. Do not start, stop, or change the dose of any drug without checking with your doctor.

## What are some things I need to know or do while I take Fructose, Dextrose, and Phosphoric Acid?

- Tell all of your health care providers that you take fructose, dextrose, and phosphoric acid. This includes your doctors, nurses, pharmacists, and dentists.
- If you have [high blood sugar](#) ([diabetes](#)), you will need to watch your blood sugar closely.
- Different brands of fructose, dextrose, and phosphoric acid may be for use in different ages of children. Talk with the doctor before giving fructose, dextrose, and phosphoric acid to a child.
- Tell your doctor if you are pregnant or plan on getting pregnant. You will need to talk about the benefits and risks of

using fructose, dextrose, and phosphoric acid while you are pregnant.

- Tell your doctor if you are breast-feeding. You will need to talk about any risks to your baby.

## How is this medicine (Fructose, Dextrose, and Phosphoric Acid) best taken?

Use fructose, dextrose, and phosphoric acid as ordered by your doctor. Read all information given to you. Follow all instructions closely.

- Measure liquid doses carefully. Use the measuring device that comes with fructose, dextrose, and phosphoric acid. If there is none, ask the pharmacist for a device to measure fructose, dextrose, and phosphoric acid.
- Do not mix with any liquid.
- Do not drink any other liquids right before or after taking fructose, dextrose, and phosphoric acid.

### What do I do if I miss a dose?

- This medicine is taken on an as needed basis. Do not take more often than told by the doctor.
- Do not take more than 5 doses in 1 hour unless told to do so by your doctor.

## What are some side effects that I need to call my doctor about right away?

WARNING/CAUTION: Even though it may be rare, some people may have very bad and sometimes deadly side effects when taking a drug. Tell your doctor or get medical help right away if you have any of the following signs or symptoms that may be related to a very bad side effect:

- Signs of an allergic reaction, like [rash](#); hives; [itching](#); red, swollen, blistered, or peeling skin with or without [fever](#); [wheezing](#); tightness in the chest or throat; trouble breathing, swallowing, or talking; unusual hoarseness; or swelling of the mouth, face, lips, tongue, or throat.

## What are some other side effects of Fructose, Dextrose, and Phosphoric Acid?

All drugs may cause side effects. However, many people have no side effects or only have minor side effects. Call your doctor or get medical help if you have any side effects that bother you or do not go away.

These are not all of the side effects that may occur. If you have questions about side effects, call your doctor. Call your doctor for medical advice about side effects.

You may report side effects to the FDA at 1-800-332-1088. You may also report side effects at <https://www.fda.gov/medwatch>.

## If OVERDOSE is suspected:

If you think there has been an overdose, call your poison control center or get medical care right away. Be ready to tell or show what was taken, how much, and when it happened.

## How do I store and/or throw out Fructose, Dextrose, and Phosphoric Acid?

- Store at room temperature. Do not freeze.
- Protect from light.
- Protect from heat.
- Store in a dry place. Do not store in a bathroom.
- Keep all drugs in a safe place. Keep all drugs out of the reach of children and pets.
- Throw away unused or expired drugs. Do not flush down a toilet or pour down a drain unless you are told to do so. Check with your pharmacist if you have questions about the best way to throw out drugs. There may be drug take-back programs in your area.

## Consumer Information Use and Disclaimer

- If your symptoms or health problems do not get better or if they become worse, call your doctor.
- Do not share your drugs with others and do not take anyone else's drugs.
- Some drugs may have another patient information leaflet. Check with your pharmacist. If you have any questions about fructose, dextrose, and phosphoric acid, please talk with your doctor, nurse, pharmacist, or other health care provider.
- If you think there has been an overdose, call your poison control center or get medical care right away. Be ready to tell or show what was taken, how much, and when it happened.
