### Drug Interaction Classification

These classifications are only a guideline. The relevance of a particular drug interaction to a specific individual is difficult to determine. Always consult your healthcare provider before starting or stopping any medication.

<b>Major</b>	Highly clinically significant. Avoid combinations; the risk of the interaction outweighs the benefit.
<b>Moderate</b>	Moderately clinically significant. Usually avoid combinations; use it only under special circumstances.
<b>Minor</b>	Minimally clinically significant. Minimize risk; assess risk and consider an alternative drug, take steps to circumvent the interaction risk and/or institute a monitoring plan.
<b>Unknown</b>	No interaction information available.

## Further information

Always consult your healthcare provider to ensure the information displayed on this page applies to your personal circumstances.
