[Uses](#) [Before taking](#) [Warnings](#) [Dosage](#) [Side effects](#) [Overdose](#) [FAQ](#)

Uses of Next Choice One Dose:

- It is used to lower the chance of pregnancy after unprotected sex.

What do I need to tell my doctor BEFORE I take Next Choice One Dose?

- If you are allergic to [Next Choice One Dose](#) ([levonorgestrel](#) (systemic)); any part of [Next Choice One Dose](#) ([levonorgestrel](#) (systemic)); or any other drugs, foods, or substances. Tell your doctor about the [allergy](#) and what signs you had.
- If you are pregnant or may be pregnant. Do not take Next Choice One Dose ([levonorgestrel](#) (systemic)) if you are pregnant.

This medicine may interact with other drugs or health problems.

Tell your doctor and pharmacist about all of your drugs (prescription or OTC, natural products, [vitamins](#)) and health problems. You must check to make sure that it is safe for you to take Next Choice One Dose ([levonorgestrel](#) (systemic)) with all of your drugs and health problems. Do not start, stop, or change the dose of any drug without checking with your doctor.

What are some things I need to know or do while I take Next Choice One Dose?

- Tell all of your health care providers that you take Next Choice One Dose ([levonorgestrel](#) (systemic)). This includes your doctors, nurses, pharmacists, and dentists.
- This medicine does not stop the spread of diseases like HIV or hepatitis that are passed through having sex. Do not have any kind of sex without using a latex or polyurethane condom. If you have questions, talk with your doctor.
- This medicine will not end a pregnancy.
- This medicine is not for regular use to prevent pregnancy.

- Use [birth control](#) that you can trust to prevent pregnancy.
- Certain drugs or [herbal products](#) could cause Next Choice One Dose (levonorgestrel (systemic)) to not work as well. Be sure your doctor and pharmacist know about all of your drugs.
- If your period is delayed for more than 7 days, talk with your doctor.
- Tell your doctor if you are breast-feeding. You will need to talk about any risks to your baby.

How is this medicine (Next Choice One Dose) best taken?

Use Next Choice One Dose (levonorgestrel (systemic)) as ordered by your doctor. Read all information given to you. Follow all instructions closely.

- Take Next Choice One Dose (levonorgestrel (systemic)) within 72 hours after unprotected sex. Take it as soon as you can.
- If you throw up within 2 hours of taking Next Choice One Dose (levonorgestrel (systemic)), you may need to take 1 more dose. Call your doctor right away.

What do I do if I miss a dose?

- Call your doctor to find out what to do.
- Do not take 2 doses at the same time or extra doses.

What are some other side effects of Next Choice One Dose?

All drugs may cause side effects. However, many people have no side effects or only have minor side effects. Call your doctor or get medical help if any of these side effects or any other side effects bother you or do not go away:

- [Headache](#).
- [Upset stomach](#) or throwing up.
- Breast soreness.
- Feeling dizzy, tired, or weak.
- Period (menstrual) changes.
- Stomach pain.

These are not all of the side effects that may occur. If you have questions about side effects, call your doctor. Call your doctor for medical advice about side effects.

You may report side effects to the FDA at 1-800-332-1088. You may also report side effects at <https://www.fda.gov/medwatch>.

If OVERDOSE is suspected:

If you think there has been an overdose, call your poison control center or get medical care right away. Be ready to tell or show what was taken, how much, and when it happened.

How do I store and/or throw out Next Choice One Dose?

- Store at room temperature in a dry place. Do not store in a bathroom.
- Keep all drugs in a safe place. Keep all drugs out of the reach of children and pets.
- Throw away unused or expired drugs. Do not flush down a toilet or pour down a drain unless you are told to do so. Check with your pharmacist if you have questions about the best way to throw out drugs. There may be drug take-back programs in your area.

Consumer Information Use and Disclaimer

- If your symptoms or health problems do not get better or if they become worse, call your doctor.
- Do not share your drugs with others and do not take anyone else's drugs.
- Some drugs may have another patient information leaflet. Check with your pharmacist. If you have any questions about Next Choice One Dose (levonorgestrel (systemic)), please talk with your doctor, nurse, pharmacist, or other health care provider.
- If you think there has been an overdose, call your poison control center or get medical care right away. Be ready to tell or show what was taken, how much, and when it happened.
