What is Zeasorb-AF?

Zeasorb-AF is an antifungal medication. This medicine prevents fungus from growing on your skin.

Zeasorb-AF (for the skin) is used to treat skin infections such as [athlete's foot](#), [jock itch](#), [ringworm](#), [tinea versicolor](#) (a fungus that discolors the skin), and yeast infections of the skin.

Zeasorb-AF may also be used for purposes not listed in this medication guide.

Zeasorb-AF side effects

Get emergency medical help if you have **signs of an allergic reaction**: hives; difficult breathing; swelling of your face, lips, tongue, or throat.

Zeasorb-AF may cause serious side effects. Stop using Zeasorb-AF and call your doctor at once if you have:

- severe blistering, redness, or irritation of treated skin.

Common side effects of Zeasorb-AF may include:

- [itching](#), peeling, or dry skin.

Although the risk of serious side effects is low when Zeasorb-AF is applied to the skin, side effects can occur if the medicine is absorbed into your bloodstream, including:

- [dry mouth](#), sore tongue, [tooth pain](#), red or swollen gums;
- altered sense of taste;
- [nausea](#), [diarrhea](#); or
- [headache](#).

This is not a complete list of side effects and others may occur. Call your doctor for medical advice about side effects.

You may report side effects to FDA at 1-800-FDA-1088.

Warnings

Follow all directions on your medicine label and package. Tell each of your healthcare providers about all your medical

conditions, allergies, and all medicines you use.

Before taking this medicine

You should not use Zeasorb-AF if you are allergic to [miconazole](#).

Ask a doctor or pharmacist if it is safe for you to use this medicine if you have other medical conditions, especially:

- if you are using a blood thinner such as [warfarin](#), [Coumadin](#), [Jantoven](#).

It is not known whether Zeasorb-AF will harm an unborn baby. **Do not use this medicine without a doctor's advice if you are pregnant.**

It is not known whether miconazole topical passes into breast milk or if it could harm a nursing baby. **Do not use this medicine without a doctor's advice if you are breast-feeding a baby.**

How should I use Zeasorb-AF?

Use exactly as directed on the label, or as prescribed by your doctor. Do not use in larger or smaller amounts or for longer than recommended.

Do not take by mouth. Zeasorb-AF is for use only on the skin. Do not use this medicine on open wounds.

Zeasorb-AF is not for use in the vagina or rectum.

Wash your hands before and after using this medication, unless you are treating a skin condition on your hands.

Clean and dry the affected area. Apply the cream, lotion, spray, or powder once or twice daily as directed for 2 to 4 weeks.

Do not cover the treated skin area unless your doctor tells you to. A light cotton-gauze dressing may be used to protect clothing.

Use this medication for the full prescribed length of time. Your symptoms may improve before the [infection](#) is completely cleared. Skipping doses may also increase your risk of further infection that is resistant to antifungal medicine.

Call your doctor if the infection does not clear up in 2 weeks (or 4 weeks for athlete's foot), or if it appears to get worse.

Store at room temperature away from moisture and heat. Keep the tube tightly closed when not in use.

 [Detailed Zeasorb-AF dosage information](#)

What happens if I miss a dose?

Apply the missed dose as soon as you remember. Skip the missed dose if it is almost time for your next scheduled dose.

Do not use extra medicine to make up the missed dose.

What happens if I overdose?

Seek emergency medical attention or call the Poison Help line at 1-800-222-1222.

What should I avoid while using Zeasorb-AF?

Avoid getting this medication in your eyes, nose, or mouth.

Avoid wearing tight-fitting, synthetic clothing that doesn't allow air circulation. Wear loose-fitting clothing made of cotton and other natural fibers until the infection is healed.

What other drugs will affect Zeasorb-AF?

It is not likely that other drugs you take orally or inject will have an effect on topically applied miconazole. But many drugs can interact with each other. Tell each of your health care providers about all medicines you use, including prescription and over-the-counter medicines, [vitamins](#), and [herbal products](#).
