### Drug Interaction Classification

These classifications are only a guideline. The relevance of a particular drug interaction to a specific individual is difficult to determine. Always consult your healthcare provider before starting or stopping any medication.

|                 |  |
|-----------------|--|
| <b>Major</b>    | Highly clinically significant. Avoid combinations; the risk of the interaction outweighs the benefit.  |
| <b>Moderate</b> | Moderately clinically significant. Usually avoid combinations; use it only under special circumstances.  |
| <b>Minor</b>    | Minimally clinically significant. Minimize risk; assess risk and consider an alternative drug, take steps to circumvent the interaction risk and/or institute a monitoring plan. |
| <b>Unknown</b>  | No interaction information available.  |
