Prenatal Plus Description

Prenatal Plus Vitamin and Mineral Tablet is an orally administered prenatal / postnatal prescription dietary supplement for both lactating and non-lactating mothers and should be administered under the supervision of a licensed medical practitioner.

Indications and Usage for Prenatal Plus

To provide Vitamin and Mineral supplementation throughout pregnancy and during the postnatal period for both the lactating and non-lactating mother. It is also useful for improving nutritional status prior to conception.

Warnings

WARNING: Accidental overdose of iron-containing products is a leading cause of fatal poisoning in children under age 6. Keep this product out of the reach of children. In case of accidental overdose, call a doctor or Poison Control Center immediately.

Precautions

High levels of folic acid may, especially in older adults, hide signs of Vitamin B-12 deficiency (such as pernicious anemia), a condition that can cause nerve damage.

Call your licensed medical practitioner about side effects.

To report a serious adverse event or obtain product information, contact AvKARE at 1-855-361-3993; email drugsafety@avkare.com

Prenatal Plus Dosage and Administration

Before, during and/or after pregnancy, one tablet daily with a meal, or as directed by a licensed medical practitioner.

How is Prenatal Plus supplied

Prenatal Plus Vitamin and Mineral Tablets are beige colored tablets, debossed with "677" on one side, dispensed in bottles of 100 tablets (NDC 50268-677-01)

Storage

STORE AT CONTROLLED ROOM TEMPERATURE 15° to 30°C (59° to 86°F).

Protect from light and moisture. Dispense in a tight, light-resistant container with child-resistant closure.

Manufactured for:

AvKARE

Pulaski, TN 38478
